

DANIEL MWANGI KAMAU

PROFFESIONAL SUMMARY

An accomplished Information Technology specialist with over 2 years of experience in full stack development, software development, system administration, network management, and IT support. Skilled in troubleshooting complex technical issues, managing IT infrastructure, and ensuring smooth operations of systems. Adept at implementing security protocols, optimizing network performance, and delivering excellent end-user support.

EDUCATION

[Bachelor of Science Information Technology](#) | KCA University

Relevant Coursework:

- Database Management Systems: Gained practical experience in database design, implementation, and management using SQL and Oracle, focusing on optimizing database performance and ensuring data integrity.
- Network Administration: Developed strong skills in configuring and maintaining computer networks, including setting up routers, switches, and firewalls, and ensuring network security.
- Systems Analysis & Design: Learned how to analyze, design, and implement IT systems, applying UML modeling techniques and developing efficient solutions for business processes.
- Cybersecurity: Studied information security principles, including risk assessment, encryption, penetration testing, and firewall management, to protect data integrity and confidentiality.
- Cloud Computing: Acquired knowledge on deploying and managing applications on cloud platforms like AWS, Microsoft Azure, and Google Cloud, focusing on scalability, security, and cost-efficiency.
- Operating Systems: Gained a deep understanding of operating systems architecture, including memory management, process scheduling, and system security, with hands-on experience in Linux and Windows environments.
- Software Engineering: Developed skills in software development methodologies (Agile, Waterfall), requirements gathering, testing, and debugging to ensure highquality software delivery.
- Data Structures and Algorithms: Learned key algorithms and data structures such as sorting, searching, and dynamic programming, enhancing problem-solving and coding efficiency.
- IT Project Management: Gained expertise in managing IT projects using tools like Microsoft Project and Jira, focusing on resource allocation, risk management, and ensuring project completion within scope and time.

CCNA: Introduction to Networks | KCA University https://www.credly.com/badges/ef1b5fd4-4d204184-ae27-dbeb2e4b16b3/public_url

Cisco verifies the earner of this badge successfully completed the Introduction to Networks course and achieved this student level credential. Earner has knowledge of networking including IP addressing, how physical, data link protocols support Ethernet, can configure connectivity between switches, routers and end devices to provide access to local and remote resources. Earner participated in up to 54 labs and accumulated up to 14 hours of hands-on labs using Cisco hardware or Packet Tracer tool.

CCNA: Switching, Routing, and Wireless Essentials | KCA University https://www.credly.com/badges/7feccc63-a413-408a-ad83-5ceae2dcade6/public_url

Cisco verifies the earner of this badge successfully completed the Switching, Routing, and Wireless Essentials course and achieved this student level credential. The earner has a foundation in switching operations, wired and wireless LAN configuration using security best practices, redundancy protocols, and developed problem-solving skills. Earner participated in up to 45 practice activities and accumulated up to 21 hours of hands-on labs using Cisco hardware and/or the Cisco Packet Tracer tool.

CCNA: Enterprise Networking, Security, and Automation | KCA University

https://www.credly.com/badges/ca6c5044-5c99-407b-85dc-acfc8771f8b4/public_url

Cisco verifies the earner of this badge successfully completed the Enterprise Networking, Security and Automation course and achieved this student level credential. The earner has a foundation in scalable network architectures, dynamic routing, mitigation of security threats, wide-area networks, virtualization, automation of programmable networks. Earner participated in up to 41 lab activities and accumulated up to 15 hours of hands-on labs using Cisco hardware and/or Cisco Packet Tracer tool.

EXPERIENCE

Junior ICT Officer | Kenya Fisheries Service

ROLES:

- Managed and maintained the organization's IT infrastructure, including servers, networks, and hardware.
- Provided technical support to over 200 employees across various departments, resolving issues related to software, hardware, and networking.
- Implemented data backup and recovery plans to safeguard critical information, significantly reducing data loss risk.
- Monitored network traffic and conducted routine maintenance on systems, resulting in improvement in network performance and uptime.
- Collaborated with the cybersecurity team to enforce security protocols, including user access management and firewall configuration.
- Led a successful migration to Office 365, ensuring seamless integration of email, collaboration tools, and cloud storage across the organization.

- Managed vendor relationships for IT hardware and software procurement, ensuring the organization received quality products and services.

KEY SKILLS GAINED:

- Systems administration with Windows Server and Linux
- Network monitoring and troubleshooting
- Data backup and disaster recovery planning • End-user support for software and hardware issues.
- Cybersecurity protocols and firewall management.

SKILLS

Technical Skills

- **Network Configuration and Management:** Understanding of network setups, including routers, switches, and firewalls, and managing network performance and security.
- **Database Management:** Skills in managing, querying, and maintaining
- **Problem-Solving:** Ability to diagnose and resolve issues efficiently, adapting to new challenges and finding innovative solutions.
- **Communication:** Clear and effective communication with colleagues, stakeholders, and databases using SQL or other database management systems (DBMS).
- **Programming and Scripting:** Knowledge of programming languages (e.g., Python, Java, C#) and scripting for automating tasks and developing software.
- **System Administration:** Proficiency in managing operating systems (e.g., Windows, Linux), including installation, configuration, and maintenance.
- **Cybersecurity:** Understanding of cybersecurity principles, threat detection, and mitigation strategies to protect systems and data.
- **Software Development Lifecycle (SDLC):** Understanding of the stages involved in software development, from planning to deployment and maintenance.
- **Backup and Recovery Solutions:** Experience with backup software and techniques for ensuring data integrity and recovering lost or corrupted data.
- **Integration Technologies:** Knowledge of integration tools and methods for connecting different systems and applications within an IT infrastructure.
- **Hardware Troubleshooting:** Skills in diagnosing and repairing hardware issues for computers, servers, and peripherals.

ACTIVITIES

Passions and Interests

As an information technology specialist, I am passionate about utilizing technology to solve real-world challenges and create innovative solutions. I enjoy working on projects that involve network management, cybersecurity, and systems development. The dynamic nature of IT keeps me constantly learning, allowing me to stay ahead of emerging trends and technological advancements.

Leadership and Volunteer Experience

Volunteer ICT Trainer – Community Center

As part of my commitment to giving back, I have conducted ICT training sessions in underprivileged communities, equipping individuals with basic computer skills and knowledge in digital literacy.

Event Organizer – Tech Conferences

I have contributed to organizing technology-focused events, including hackathons and conferences that bring together aspiring IT professionals and seasoned experts to share knowledge and ideas.

Certifications

Cisco Certified Network Associate (CCNA)

Specializing in networking, this certification has enabled me to design and implement complex network solutions efficiently.

Certificate No. B25 1391

This is to certify that

Kamau Daniel Mwangi

Having satisfied the requirements for the award of the Degree of

Bachelor of Science in Information Technology

Second Class Honours (Lower Division)

*Was admitted to the Degree at a Congregation held at this University on the
Fourth day of July in the year
Two Thousand and Twenty Five*

Vice Chancellor

Registrar, Academic Affairs

This certificate is awarded to

Daniel Kamau

for successfully completing

CCNAv7: Introduction to Networks

through the Cisco Networking Academy program.

A handwritten signature in black ink that reads "Lynn Bloomer".

Lynn Bloomer
Director
Cisco Networking Academy

21 Jun 2021
Completion Date

This certificate is awarded to

Daniel Kamau

for successfully completing

CCNAv7: Switching, Routing, and Wireless Essentials

through the Cisco Networking Academy program.

A handwritten signature in black ink that reads "Lynn Bloomer".
