Phone: +2541 15256 304

Dear Hiring Team,

I am excited to apply. I have dedicated my career to designing and developing innovative, user-centric websites and applications that are both functional and visually captivating.

In my current role, I have successfully designed and launched platforms for brands, focusing on delivering user-friendly interfaces and seamless user experiences. My technical expertise mainly spans in main Frameworks like ReactJs / typescript, Flask, ReactNative and NextJs and server-side scripting like Node.js, Python and Java while my passion lies in simplifying complex problems through creative, intuitive designs.

Highlights of my experience include:

- Designing a high-traffic e-commerce platform that increased sales and created user-friendly UI.
- Developing a responsive web application for corporation, which enhanced user engagement by 30%.
- Took part in development of POS system, improving UI design and functionality ezafar.com
- Leading a team in the redesign of a client's website, achieving a 25% improvement in load times and usability scores.
- My product **Tickoo Events** an event ticketing system which am the owner.
- Took part in Davis and shirtliff 2025 Hackathon and helped in integrating AI in the ERP Job management.

I am particularly drawn to this opportunity because of your emphasis on creativity and user experience, which resonates deeply with my professional ethos. I believe I can bring a unique perspective and add substantial value to your association by crafting a website that effectively communicates your message and fosters engagement.

I look forward to the opportunity to discuss my qualifications further. Thank you for considering my application.

Yours sincerely,
Simon Wachira Maina

SIMON WACHIRA MAINA

SOFTWARE ENGINEER | WEB AND MOBILE UX/UI DEVELOPER | INNOVATIVE TECHNOLOGY ENTHUSIAST

PROFESSIONAL STATEMENT

A highly motivated and skilled aspiring Software Engineer with a strong foundation in web and mobile full stack development and a passion for leveraging innovative technology to solve real-world problems. Inspired by the mission of empowering individuals and organizations through technology, I bring a blend of technical expertise, creative problem-solving abilities honed through academic projects and practical experience, and a commitment to delivering high-quality, user-centric solutions. Eager to contribute my skills and enthusiasm to a dynamic and forward-thinking team.

EDUCATIONAL FOUNDATION

Kirinyaga University

Bachelor of Science in Software Engineering 2021 – April 2025 | Graduation: 9th October 2025

Advanced Academic Trajectory

My academic curriculum has been designed to create a strong technological foundation in:

- Advanced Algorithmic Problem Solving
- Extensive Analysis of Data Structures
- Most Modern Software Development Methodologies
- Architectural Principles of Cloud Computing
- Advanced Software Design and System Architecture

This comprehensive educational approach equipped me with a holistic understanding of software engineering principles, making me ready to address various technological challenges with innovative solutions.

Gaichanjiru Boys High School

Kenya Certificate of Secondary Education | 2017 - 2020

High school education

PROFESSIONAL EXPERIENCE: TECHNOLOGICAL INNOVATION IN ACTION

Intern (Remote) | eZafar.com

June 2025-present

I have played a vital role in the following significant areas;

- End-to-end development of a new Point of Sale (POS) system using Python, Flask, and PostgreSQL.
- Designed and implemented key backend functionalities, including user authentication, transaction processing, and inventory management.
- Managed the PostgreSQL database, optimizing schema design and queries to ensure data integrity and application performance.
- Contributed to the deployment process, from setting up the production environment to ensuring the system's successful launch.
- Collaborated remotely with the development team, applying agile methodologies to deliver significant features on schedule.

Creative Director | Paveeria Tech Solutions

2024

I have played a vital role in the following significant areas concerning pushing the limits of technological innovation:

- Spearheading innovative software solution development beyond the edge of conventional technological limitations
- Orchestrating cross-domain technological collaborations
- Applying sophisticated engineering to solve complex problems
- Exhibiting exceptional adaptability with ever-evolving technological landscapes
- Proactively learning and implementing emerging technologies

Web Designer | Paveeria Tech Solutions

2023 - 2024

Key achievements include:

- Designed user-centered design solutions with a focus on functionality and aesthetic excellence
- Implemented responsive and innovative web applications
- Maintained rigorous standards of product quality and performance
- Showcased commitment to technological innovation and user-focused design

Web Developer | Jalicom Interiors

2022 - 2023

My tenure Jalicom Interiors was characterized by:

- Developing sophisticated web-based solutions with a primary focus on outstanding user experiences
- Coordinating closely with cross-functional technological groups to ensure smooth collaboration and information exchange
- Effectively applying innovative creative problem-solving techniques in technical scenarios
- Bridging design aesthetics with functional technological needs

TECHNICAL EXPERTISE: ALIGNED WITH THE NEW TECHNOLOGICAL ECOSYSTEM

Core Technical Competencies

- **Web Development Stack:** ReactJS (Expert), NextJS, JavaScript (Expert), TypeScript, Flask, React Router, Tailwindcss, Bootstrap, HTML5, CSS.
- **Backend Languages:** Node.js (Expert), Express/common Js (Expert), Python 75%, C# 70%, Java 65%.
- **Mobile Development:** React Native, Flutter, Expo, xml/java.
- **Database:** PostgreSQL, MySQL, Firebase, MongoDB
- **Version Control:** Git & GitHub (85%).
- **Containerization Technologies:** Docker, Kubernetes.
- **Design:** Figma, Adobe, Canva
- **Software's and IDEs:** VS code, Jupyter Notebook, Android Studio, Word/Excel, Slack & Microsoft Teams, Expo Go, CPanel (deployment and hosting), Vercel & Netlify

Advanced Technical Specializations

- Microservices Architecture Design
- Cloud Computing Conceptualization
- Agile Development Methodologies
- Continuous Integration/Continuous Deployment (CI/CD) Strategies
- Backend System Architectural Design
- Performance Optimization Techniques

DEVELOPMENT || DESIGN CULTURAL RESONANCE

Growth Mindset Manifestations

My professional philosophy is deeply aligned with Microsoft's core cultural attributes:

- Continuous technological learning and integration
- Proactive in seeking constructive feedback
- Embracing challenges as opportunities for personal and professional metamorphosis
- Committed to collaborative problem-solving paradigms
- Passionate about leveraging technology as an empowerment tool

Cultural Alignment Strengths

- Innovative and forward-thinking approach
- Excellent adaptability to technological changes
- Excellent team collaboration capabilities
- Commitment to quality and excellence
- Proactive and self-driven learning methodology
- Solution-oriented problem-solving approach

PROFESSIONAL DISTINGUISHING ATTRIBUTES

- Authorized to work in Kenya
- Fluency in the English language
- Capacity for rapid assimilation of technologies
- Interested in contributing toward transformative technological solutions
- Altruistic commitment to Tech's mission for global empowerment through technology

PROFESSIONAL SHOWCASE
