PROFILE

A passionate and diligent Computer Science Student with a strong foundation in programming, problem-solving, and cybersecurity. Skilled in system analysis, technical support, and IT infrastructure maintenance, I am committed to leveraging my expertise to deliver innovative solutions and contribute to organizational success. With hands-on experience in various ICT roles and certifications in cybersecurity, I am dedicated to continuous learning and professional growth to stay ahead in the rapidly evolving tech industry. Core values: integrity, professionalism, and respect for diversity guide every aspect of my work, ensuring a positive impact on both projects and team dynamics. Integrity: Committed to maintaining ethical standards and adhering to a principled approach to work and decision-making. Professionalism: Conducting myself with a high level of professionalism, demonstrating dedication to excellence in all endeavors. Respect for Diversity: Valuing diverse perspectives and creating an inclusive environment where all individuals feel valued and empowered.

SKILLS

Advanced Networking	ICT Fundamentals	OS Deployment	Virtualization
Data Processing	ICT Hardware	Software Development	Performance Optimization
Database Administration	ICT Infrastructure	Programming Languages	Web Security
Database Management	Incident Response	Security Frameworks	Web Technologies
Frontend Development	Networking Security	Telecommunications	Wireless Networks

CORE COMPETENCIES

Technological Awareness	Client Orientation	Continuous Learning	Planning and Organizing
Accountability	Communication	Creativity	Teamwork

PROFESSIONAL EXPERIENCE

Industrial Attachment

- ❖ **Ministry of Interior and Coordination of National Government (Civil Registration Services)**
(Government Organization)
Nairobi, Kenya.
[May 2024 – Nov 2024]

RESPONSIBILITIES:

- Set up and configured networks, including manual assignment of IP addresses, ensuring stable and secure connectivity across the department.
- Diagnosed and resolved issues with ICT accessories, including printers, scanners, and other peripheral devices, ensuring minimal downtime.
- Installed and configured critical software applications such as Cisco VPN clients, Adobe Flash Player, and the Civil Registration Statistics System to enhance operational efficiency.
- Performed installations of Linux and Windows operating systems, tailoring configurations to meet departmental needs.
- Conducted routine maintenance and repairs of both hardware and software, preventing potential system failures and ensuring smooth operations.
- Identified the root causes of system failures and implemented effective solutions, reducing disruptions to essential services.
- Assisted with administrative tasks, including documentation and reporting, to support the department's operational objectives.
- Any other related tasks assigned.

IT Consultant

- ❖ **ODERA WERE ADVOCATES**
(Private Organization)
Nairobi, Kenya
[Jan 2022 – Dec 2023] Part Time

RESPONSIBILITIES:

- Oversaw and maintained the firm's IT systems, including servers, networks, and workstations, to ensure smooth operation and minimal downtime.
- Implemented and maintained security measures to protect sensitive client and firm data by responding to potential threats or breaches.
- Evaluated, recommended, and installed security management software.
- Developed and managed backup strategies to ensure data integrity and availability and implemented disaster recovery plans in case of failure.
- Provided on-call technical support to staff, addressing hardware and software issues.
- Trained staff on the use of IT systems, software, and cybersecurity best practices and created user manuals to enhance IT proficiency among employees.
- Managed the firm's internal and external networks, including VPNs for remote access, and optimized network performance while resolving connectivity issues.
- Assessed emerging technologies and recommended solutions to enhance operational efficiency, aligning IT strategy with the firm's overall business objectives.
- Any other related tasks assigned.

Deputy Presiding Officer

❖ **INDEPENDENT ELECTORAL AND BOUNDARIES COMMISSION {IEBC}**

(Government Organization)

Nairobi, Kenya.

[Aug 2022 - Aug 2022]

RESPONSIBILITIES:

- Announced election results in a designated polling station; signed the official results declaration forms in a polling station; and transmitted results electronically to the national & constituency tallying centers.
- Briefed the agents on their roles and responsibilities at the polling station before polling started; and provided information on the number of registered voters and voter turnout at the polling station.
- Carried out any other polling station duties on the instruction of the Presiding Officer.
- Controlled the admission into the polling station; assisted voters who required assistance; and controlled the flow of voters in the polling stations.
- Handed over the official results to the Returning Officer at the constituency tallying center; and performed any other duties assigned by the Presiding Officer and Returning Officer.
- Kept the polling station neat and tidy and checked and marked electors' electoral numbers in the register of electors and on the corresponding numbers lists.
- Regularly updated the Returning Officer on the voter turnout and any other emergencies, and counted and tallied votes cast.
- Supervised polling officials; ensured the security of election materials; and administered the oath of secrecy to voter assistants.
- Any other related tasks assigned.

Industrial Attachment

❖ **MINISTRY OF INFORMATION COMMUNICATION TECHNOLOGY**

(Government Organization)

Nairobi, Kenya.

[Oct 2021 – Dec 2021]

RESPONSIBILITIES:

- Actively monitored the performance of IT systems, identifying and addressing potential security threats such as unauthorized access or malware attacks.
- Provided comprehensive technical support to ministry staff, resolving issues related to software, hardware, and network connectivity.
- Regularly maintained and updated computer infrastructure, including hardware components, network devices, and other ICT accessories.
- Maintained detailed records of system configurations, network setups, and any incidents or troubleshooting efforts.
- Compiled regular reports on system performance and security incidents, providing insights into trends and potential areas for improvement.
- Assisted in network upgrades, including hardware replacements and software patches, to improve system reliability and security.
- Contributed to the setup and configuration of firewalls, enhancing the network's defense against cyber threats.
- Provided hands-on support in troubleshooting and repairing devices such as scanners, printers, and other office peripherals.
- Worked closely with senior IT staff to resolve more complex issues, contributing to team efforts to streamline operations and improve the overall IT infrastructure of the ministry.
- Any other related tasks assigned.

Sales and Marketing Assistant
❖ **EVER GREEN SPRINGS LIMITED**
(Private Organization)
Nairobi, Kenya.
[Mar 2020 - Dec 2020]

RESPONSIBILITIES:

- Collected and analyzed data about customer preferences and buying habits for targeted marketing purposes, informing strategic decision-making and product development initiatives.
- Coordinated events such as trade shows, conventions, seminars, or product launches, ensuring smooth execution and maximizing brand visibility and engagement.
- Developed and executed marketing strategies for specific products or services, collaborating with other departments to ensure seamless integration and alignment with organizational objectives.
- Cultivated and maintained relationships with current customers by providing product information, promotional offers, and personalized assistance, fostering loyalty and repeat business.
- Prepared proposals for new business opportunities and managed existing accounts, overseeing marketing materials such as brochures, fliers, and catalogs to promote products or services effectively.
- Delivered exceptional customer service by addressing inquiries about products or services, processing orders, and resolving complaints promptly and effectively.
- Tracked shipments, communicated updates to customers regarding any delays, and ensured timely and accurate distribution of promotional materials.
- Maintained and updated social media channels and digital price lists, supported sales activities and assisted in scheduling meetings and arranging travel details.
- Any other related tasks assigned.

Freelancer
❖ **UPWORK**
(International Organization)
Virtual -Part Time
[Jan 2020– Present]

RESPONSIBILITIES:

An independent professional who offers services to clients on a project-by-project basis. Upwork is a platform that connects freelancers with businesses and individuals looking for specific skills.

CYBERSECURITY CERTIFICATIONS

- Cyber Safe Foundation: Certificate in Cybersecurity (2023)
- Cyber Shujaa: Women in Cybersecurity (2024)
- IBM & Udemy: Cybersecurity Fundamentals (2024)
- OPSWAT: Introduction to Critical Infrastructure Protection (2022)
- Cisco Networking Academy: Introduction to Cybersecurity (2019 – 2020)

EDUCATION

Bachelor of Computer Science

- **KIRIRI WOMEN'S UNIVERSITY OF SCIENCE AND TECHNOLOGY**
[2022 – Present] Finishing April 2025

Diploma in Information Communication Technology

- **KIRIRI WOMEN'S UNIVERSITY OF SCIENCE AND TECHNOLOGY**
[2021 – 2022]

Kenya Certificate of Secondary Education

- **ST. TERESA'S SECONDARY SCHOOL**
[2015 – 2019]

TECHNICAL SKILLS

Programming and Software Development

- Software engineering principles (e.g., design patterns, testing, debugging).

Database Management

- Knowledge of SQL and NoSQL databases (e.g., MySQL, PostgreSQL, MongoDB).
- Database design, optimization, and administration.

Networking and Security

- Understanding of network protocols and architectures (e.g., TCP/IP, DNS).
- Cybersecurity principles (e.g., encryption, firewalls, penetration testing).
- Network configuration and troubleshooting.

Operating Systems and System Administration

- Familiarity with operating systems (e.g., Windows, Linux, macOS).

ICT Fundamentals

- Proficiency in computer hardware and software troubleshooting.
- Knowledge of ICT systems integration and maintenance.
- Familiarity with ICT policies and best practices.

Data Analysis and Machine Learning

- Data visualization tools (e.g., Tableau, Power BI,).
- Machine learning frameworks (e.g., TensorFlow, PyTorch).

Web Technologies

- Frontend development (HTML, CSS, JavaScript, frameworks like React or Angular).

OTHER TECHNICAL SKILLS

- | | | |
|-------------------|----------------|-------------------------|
| • Ai Chatbots | • Google docs | • Power BI |
| • E-filing system | • Google Suite | • Microsoft Office |
| • Excel | • Magento | • Outlook |
