

PROFILE

Motivated and detail-oriented software engineering graduate with a solid academic foundation and practical experience in software development. Eager to translate coursework knowledge into impactful, real-world applications in a junior position. Looking to contribute meaningfully to cutting-edge projects, build hands-on experience, and expand my expertise in software engineering and artificial intelligence.

EDUCATION

Kirinyaga University

Bachelor of Science in Software Engineering  
Sept 2020 - 2024

Nkubu High School

Mean grade: B  
2016-2019

PROFESSIONAL EXPERIENCE

Tiger Analytics Carlifornia

Feb 2025 -July 2025

- Collaborated with team to develop web based chatai using react and node js as backend integrating with databrick agentic endpoint,
- Deployed the agentic application to the cloud using Azure.
- Developed APIs that were used in implementing the workflow.
- Build web based chatbots using react and integrated with Llms improving user interaction.

NLS Tech solutions

Nov 2024- Dec2024

- worked as an implementation Engineer. provided technical support to client by deploying, customizing, integrating to meet specific requirement.
- collaborated with the team on testing to ensure software developed were operating correctly.

L anstar Technology

May 2023- Aug 2023

- Provided technical support to users via Skype and phone, troubleshooting software and hardware issues.
- Documented common issues and solutions to create a knowledge base for future reference.
- Assisted in testing new software releases and provided feedback to the development team.
- Developed APIs that were utilized to implement the new online functions.

Asante Africa Foundation

May 2022 - Aug 2022

- Assisted senior developers in designing and implementing new features for web applications.
- Participated in code reviews and provided constructive feedback for improving code quality.
- Troubleshooted and resolved bugs reported by users, enhancing overall product reliability.
- prepared reports on various topics related to the company's operations and industry trends

SKILLS

- Programming Languages:  
Proficient in python, Java, JavaScript.
- Web Development: Experience with HTML, CSS, JavaScript, React.js, Node.js,.
- Problem-solving: Strong analytical skills and ability to troubleshoot complex issues.
- Database Management:  
Familiarity with MongoDB, MySQL.
- Communication: Excellent verbal and written communication skills, able to collaborate effectively in team environments.
- Cloud computing : aws and azure

CERTIFICATIONS

- JavaScript Algorithms and Data Structures- Free code Camp
- Successfully completed introduction to Artificial Intelligence
- Aws certificate
- Azure certificate
- cisco ethical hacking from cyber shujaa

ADDITIONAL ACTIVITIES

- Organized and led meetings for Sam Elimu IT group.
