

Anne Pauline Anyango - Resume

Professional Summary - QA Analyst | QA Engineer | ISTQB Certified

ISTQB-certified QA professional with a unique blend of precision from a medical laboratory background and expertise in manual, automated, API, and performance testing. Skilled in tools including Selenium, Katalon, Appium, JMeter, Postman, SoapUI, Jira, Azure DevOps, MySQL, TestRail, and TestLink. Demonstrated ability to execute 200+ test cases with 99% defect detection accuracy, applying analytical thinking, clinical accuracy, and agile best practices to deliver reliable, high-performing software. Currently enhancing skills in data science and full-stack development to drive innovation and quality excellence.

Work Experience

Quality Assurance Engineer (Freelancer)

Horizon Hire | June 2024 - Present

- Developed comprehensive test plans and executed detail test cases for web applications.
- Identified, documented, and tracked 50+ software defects using JIRA and Bugzilla.
- Performed MySQL database validation and integrity testing for e-commerce applications.
- Conducted systematic regression testing achieving 95% test coverage.
- Created detailed test case documentation and bug reports following industry standards.
- Collaborated with development teams to ensure timely defect resolution.

Customer Support & Experience Specialist - Kenya

M-Kopa | Nov 2021 - Present

- Delivered responsive customer assistance via phone and digital platforms, ensuring quick resolution of inquiries and issues.
- Logged, tracked, and analyzed user issues in Freshdesk CRM, identifying trends and improvement opportunities.
- Tested and reviewed M-Kopa App features, providing actionable feedback to enhance usability and performance.
- Trained users on app functionality, boosting adoption and satisfaction rates.
- Monitored CRM data accuracy and maintained high standards in customer experience KPIs.

Quality Control Specialist - Kenya

WeCare Medical Centre | Jan 2021 - September 2021

- Performed quality control checks on lab results, ensuring 100% accuracy and compliance with medical standards.
- Validated SOPs, maintained audit-ready documentation, and resolved equipment/procedural issues.
- Ensured data integrity by verifying lab results, equipment calibration logs, and report consistency.
- Investigated and resolved lab equipment and procedural issues, reducing testing delays by 30%.
- Maintained detailed quality assurance records, including control logs, deviation reports, and compliance documentation for audits.
- Developed a growing interest in software testing through hands-on work with healthcare applications.
