PERSONAL STATEMENT

I'm a passionate software developer and trainer with strong front-end and back-end skills. I specialize in building responsive, user-friendly interfaces using **HTML, CSS, Tailwind, MUI, JavaScript, ReactJS, Typescript**, and **Bootstrap**, and implementing full-stack functionality with **Python, PHP, Django, Nodejs, PostgreSQL, and MySQL**. I enjoy solving real-world problems through crafting good UI and implementing secure web solutions.

EXPERIENCE

Attachment – [View Certificate](#)

Teach2give Institute – Nyeri, Kenya May 2025 – August 2025

- Developed and deployed full-stack applications using Nodejs, Material UI, Tailwind, React, Typescript, Javascript, Express, Prisma and PostgreSQL.
 - Reviewed and mitigated web application security vulnerabilities. E.g bcrypt and JWT authentications.
 - Contributed to design, development, and documentation of scalable projects
-

TECHNICAL SKILLS

- **Languages:** Python, PHP, JavaScript, HTML5, CSS3, Nodejs, Typescript, Express
 - **Frameworks:** Django, ReactJS, Bootstrap
 - **Databases:** MySQL & PostgreSQL
 - **Tools & Concepts:** Git, Render, Application Security, Vulnerability Assessment
-

SOFT SKILLS

- Strong communication skills (Both written and verbal)
- Collaborative team player
- Attentions to details and fast learner

- Problem-solving skills
 - Good leadership skills
-

EDUCATION

Emobilis Training Institute – Nairobi, Kenya

Certification in Fullstack web development (Sep 2024 – Dec 2024) – [View Certificate](#)

Murang’a University of Technology – Murang’a, Kenya

Higher Diploma in Information Technology (Nov 2022 – Mar 2025)

PROJECTS

1. Villa Rosa Hotel Website

[Villa-rosa-Website](#)

Built a responsive hotel interface using Bootstrap showcasing intuitive layout and clean design for hospitality booking platforms.

2. Tea Factory System [gatundu-tea-factory](#)

Designed a web system where users can register, place and track orders. Integrated Django for admin CRUD operations and database management.

3. Developer Portfolio [maunducyrus-portfolio](#)

Comprehensive showcase of my frontend and backend projects. Hosted on vercel and optimized for performance and SEO.

4. Notely – fullstack application [notely-fullstack-application-frontend](#)

This was a fullstack application for taking notes including all CRUD operations and security (jwt & bcrypt), added Note sharing option and also AI integration.
