PERSONAL STATEMENT

Computer Science and Mathematics student with experience in IT support and systems operations, skilled in troubleshooting, documentation, and providing clear, efficient user support.

PROFESSIONAL EXPERIENCE

IT Support Intern

Safaricom Limited – Nairobi, Kenya

October 2025 – Present

- Provide first-line IT support by diagnosing and resolving hardware, software, and network issues in Windows environments.
- Manage user access and permissions via Active Directory, including account setup and password resets.
- Install, configure, and update enterprise software and operating systems for optimal performance.
- Troubleshoot VPN, login, and application issues; monitor and respond to system alerts to minimize downtime.
- Log and track service requests using BMC Remedy, adhering to ITSM practices and maintaining accurate documentation.
- Support virtualized environments; escalate complex incidents with detailed technical documentation.
- Deliver clear, professional technical support and maintain knowledge base documentation to improve service efficiency.

Operations Intern

Generation Zee Talents Limited – Nairobi, Kenya

May 2024 – July 2024

- Supported daily operations by maintaining accurate data records and performing data entry, validation, and cleaning.
 - Used Microsoft Excel to track operational metrics and identify workflow inefficiencies.
 - Assisted in preparing reports and dashboards using Microsoft Power BI to support data-driven decision making.
 - Contributed to technical documentation and process guides to improve operational efficiency.
 - Supported scheduling and automation initiatives to reduce repetitive tasks.
-

EDUCATION

Bachelor of Science in Mathematics and Computer Science

Jomo Kenyatta University of Agriculture and Technology (JKUAT)

Expected Graduation: 2027

DATA & TECHNICAL SKILLS

- **Operating Systems:** Linux (terminal, logs, permissions, troubleshooting), Windows
 - **Networking:** TCP/IP basics, DNS, ping, traceroute, dig, connectivity troubleshooting
 - **Infrastructure:** Hardware troubleshooting, system diagnostics, workstation support
 - **Scripting:** Bash, basic Python
 - **Cloud:** AWS fundamentals (EC2, S3, IAM), cloud computing concepts
 - **Tools:** Git/GitHub, Jira & Confluence (basic), Microsoft Office 365
