AREAS OF EXPERTISE

IT Management | Data Analysis | Oracle ERP Implementation | Programming (C, C++, JavaScript, HTML, SQL, PostgreSQL) | Linux Server Administration | Report Design and Development | Incident Management | Data Privacy Policy Development | Advanced Statistical Analysis (SAS, R, SPSS) | Troubleshooting and Technical Support | AKVO and IATI Connect Proficiency | IT Equipment Configuration | Mobile Application Support | Oracle Business Reports Customization

PROFESSIONAL SUMMARY

A highly skilled and versatile IT professional with extensive experience in IT management, data analysis, and Oracle ERP systems. Proven ability to deliver exceptional technical support, streamline IT operations, and develop robust data privacy and IT policies to enhance organizational efficiency. Adept at leveraging programming expertise (C, C++, JavaScript, HTML, SQL, and PostgreSQL) and advanced analytical tools (SAS, SPSS) to deliver actionable insights and optimize decision-making processes. Recognized for outstanding interpersonal communication, problem-solving capabilities, and a commitment to continuous learning and innovation. Demonstrates strong leadership in managing teams, conducting training, and executing critical IT projects in fast-paced environments. Passionate about driving technological advancements to support strategic objectives and create impactful solutions.

Career Strengths

- ☑ **Problem-Solving:** Expert in analyzing complex challenges and developing effective solutions to ensure seamless IT operations and project success.
- ☑ **Communication:** Strong ability to convey technical concepts clearly to diverse audiences, fostering collaboration and understanding.
- ☑ **Leadership:** Proven capability to guide and motivate teams to achieve organizational goals and deliver high-quality results.
- ☑ **Adaptability:** Quick to embrace and implement new technologies and methodologies in dynamic work environments.
- ☑ **Time Management:** Skilled in prioritizing tasks effectively to meet tight deadlines and ensure optimal productivity.

PROFESSIONAL EXPERIENCE

IT/Data Manager | March 2021 – June 2025

The Circle of Concerned African Women Theologians

Key Contributions:

- ☑ Conducted desktop research on Sexual, Reproductive, and Health Rights in Eastern Africa, providing critical insights for advocacy and program development.
- ☑ Manage the ICT asset lifecycle; requisitioning, maintenance, disposal, repair and/or upgrades enhancing technological capabilities.
- ☑ Deployed and installed the Microsoft 365 platform in various devices as recommended and offering support for its operations.
- ☑ Designed and implemented reporting templates for all organizational sections, standardizing data reporting processes.
- ☑ Provided expert technical advice on IT-related issues, supporting effective decision-making and operational efficiency.
- ☑ Leveraged AKVO and IATI Connect reporting tools to optimize and streamline data collection and reporting.

- ☑ Trained staff on emerging technologies and IT-related areas, fostering organizational growth in technical competencies.
- ☑ Set up and configured IT equipment, ensuring readiness for operations and minimizing downtime.
- ☑ Developed and implemented IT and Data Privacy policy documents, strengthening compliance and data security.
- ☑ Scheduled and managed meetings on Zoom, Google Meet and Microsoft Teams, ensuring seamless virtual collaboration and communication.

ICT Supervisor | July – August 2019

Kenya National Bureau of Statistics (KNBS)

Key Contributions:

- ☑ Delivered 24/7 technical support during the 2019 Kenya Census, ensuring smooth and uninterrupted field operations.
- ☑ Monitored and managed CAPI application performance, enhancing data accuracy and system reliability.
- ☑ Trained KNBS management and users on CAPI application usage, ensuring adherence to ICT and security policies.
- ☑ Ensured accurate and timely logging of all field requests and incidents, enabling swift resolution.
- ☑ Supervised the training of enumerators, significantly improving data collection processes and outcomes.
- ☑ Prepared detailed technical reports, supporting strategic decisions and operational planning.
- ☑ Resolved escalated technical issues promptly, maintaining a high-resolution success rate.

ICT Application (Mobile) Support | March 2018 – February 2019

BSK Global Technologies

Key Contributions:

- ☑ Provided Level 1 and Level 2 support for developed applications, improving system reliability and user experience.
- ☑ Performed Linux server administration, ensuring secure and efficient server performance.
- ☑ Validated and tested new application features, delivering high-quality software solutions.
- ☑ Designed standard and ad-hoc reports to support strategic, tactical, and operational decision-making.
- ☑ Managed tooling and reporting to proactively identify and resolve technical issues, reducing system disruptions.
- ☑ Logged and tracked support requests and incidents using a ticketing system and performed a follow-up on the issues escalated.
- ☑ Monitored and resolved service issues efficiently, maintaining service quality and reliability.
- ☑ Prepared detailed monthly and quarterly reports on subscriber activities, enabling data-driven decision-making.

Oracle Technical Consultant | October 2015 – April 2017

Dhanush Infotech Limited (Galana Energies Limited)

Key Contributions:

- ☑ Customized Oracle applications to meet unique business requirements, improving system usability.
- ☑ Trained users on Oracle systems, fostering a culture of technology-driven efficiency.
- ☑ Prepared and delivered system and process documentation, ensuring knowledge retention and operational continuity.
- ☑ Implementation and technical expertise in Oracle Applications R12/11x, across the Discrete and Financials Modules such as General Ledger (GL), Payables (AP), Receivables (AR), Manufacturing Modules, Purchasing Order (PO), Inventory (INV), and Order Management (OM).
- ☑ Designed and developed of Oracle Business Intelligence reports using oracle BI Publisher and Oracle Reports Builder.
- ☑ Application Customization Data loading for new Operating Unit implementations.

Oracle Functional Consultant | April 2013 – September 2015

Dhanush Infotech Limited (Airtel Africa-Kenya)

Key Contributions:

- ✓ Allocated tasks effectively to team members, ensuring productivity and project success.
- ✓ Uploaded and reconciled inventory and purchase orders, improving financial accuracy.
- ✓ Managed P2P cycle processes in Oracle R12, streamlining procurement workflows.
- ✓ Conducted in-depth data analysis and reporting, supporting strategic and operational initiatives.
- ✓ Ensured all project operational SCM deliverable are met.
- ✓ Coordinated Oracle EBS SCM activities for the following African countries: Kenya, Tanzania, Uganda, Malawi, Madagascar, Nigeria, Niger, Burkina Faso, Gabon, Ghana, Rwanda and Chad.
- ✓ Team issued with certificate of recognition by the client for exemplary support services offered.

EDUCATION

Bachelor of Science (Computer Technology) | 2012

Jomo Kenyatta University of Agriculture and Technology (JKUAT)

Other Trainings

- ✓ RUFORUM | Data Science for Research and Institutional Intelligence | August 2025
- ✓ Department of Mathematics UON | Learning Statistics with R Programming Course | April 2023
- ✓ Kaspersky | Cyber security | March 2023
- ✓ HP Online Life course | Data Presentation | September 2023
- ✓ Global Financing Facility | Strengthening Civil Society | June 2022
- ✓ Netherlands Ministry of Foreign Affairs | Stakeholder Engagement Course | June 2022
- ✓ Lenovo | Lenovo Certified Data Center Networking Professional | July 2018
- ✓ Oracle Partner Network | Consulting Skills Oracle Boot Camp | November 2013

Hobbies and Interests

- ✓ Engaging in informative reading to stay updated with industry trends and broaden knowledge.
- ✓ Participating in community service initiatives to contribute positively to society and foster social impact.
- ✓ Enjoying nature walks to promote well-being and inspire creativity.

LANGUAGES

- ✓ English – Proficient
- ✓ Swahili – Native
