

MTENDE GEOFFREY

CyberSecurity, Networking

SHIKUKU

System and Web development Expert

CONTACT **Phone:** 0717031658
Email: geoffreymtende@gmail.com

OBJECTIVE

A motivated and results-driven IT professional with hands-on experience in full-stack web development, particularly using Python (Django) and MySQL. Skilled in front-end technologies such as HTML, CSS, JavaScript, and experienced with CMS platforms including WordPress and Joomla. Knowledgeable in PHP (Laravel) and passionate about backend logic, API development, and database optimization. Familiar with web hosting, Apache Web Server, and cross-platform development environments including Windows, Linux, and Ubuntu. Strong understanding of networking, cybersecurity, and system integration. Eager to contribute to a fast-paced development team and grow within a collaborative tech environment.

PROFFESIONAL EXPERIENCE

Industrial Attachment – Judiciary Embu Law Courts (*May 2024 - August 2024*)

Technical Support & System Administration

- Configured routers, access points, and network devices to support secure and stable connectivity.
- Managed server systems and resolved hardware issues including printers and peripheral devices.

System Maintenance & Integration

- Participated in the maintenance, upgrade, and integration of the Court Tracking System (CTS), ensuring seamless system functionality and performance.
- Contributed to planning sessions for system upgrades and technical improvements.

Networking & Infrastructure Support

- Assisted in configuring and troubleshooting LAN/WAN networks, enhancing system reliability and user access.
- Gained practical exposure to enterprise-level networking and IT infrastructure.

Professional Development

- Developed practical skills in system development, cybersecurity, and technical support within a structured government ICT environment.
 - Strengthened communication and teamwork through cross-departmental collaboration.
-

SKILLS

Web Development & Programming:

- Proficient in HTML, CSS, and JavaScript frameworks including Vue.js and jQuery for front-end development.
- Skilled in backend development using Python (Django) and familiar with PHP (Laravel) for full-stack web solutions.
- Experience in developing and integrating REST APIs for seamless system communication and service interaction.

Database Management:

- Strong command of MySQL, including query optimization, data handling, and performance tuning in production environments.
- Proficient in writing backend database queries and performing data analytics for reporting and monitoring.

Web Hosting & Deployment:

- Experienced in deploying web applications on Apache Web Server and managing hosting configurations.
- Familiar with email automation tools and basic DevOps workflows.

Cloud Core Security & Networking:

- Expertise in DNS, Firewall configurations, and Cyber-Dome-NCYD security solutions for web infrastructure protection.

Systems Integration & Deployment:

- Solid experience in system planning, design, integration, upgrading, and testing—particularly with Django-based systems.

Network Operations & Troubleshooting:

- Skilled in diagnosing and resolving issues in WiMAX, Fiber, and telecom cloud networks.

Cloud & Virtualization Technologies:

- Proficient with platforms such as VMWare, AWS, Azure, OpenStack, OpenShift, and Google Cloud Platform (GCP) for deploying and scaling web systems.

Security & Compliance:

- Adept at vulnerability assessment, enforcement of security policies, and risk management strategies for both cloud and on-premises environments.

Hardware & Network Configuration:

- Hands-on experience with hardware maintenance, device configuration, and network optimization within the Judiciary Embu Law Courts.

Operating Systems:

- Proficient in working across multiple platforms including Windows, Linux, Ubuntu, and Windows Server 2012 R2.

Pre-Sales & Technical Consultation:

- Experience in pre-sales engineering, technical advising, and end-to-end project governance, ensuring alignment between client requirements and technical solutions.
-

TRAINING AND CERTIFICATION

Certifications (*Online Courses - Udemy, Alison, and Great Learning*)

- **Cyber security certification** (Udemy)
 - **Cybersecurity certification** (great learning)
 - **CompTIA security+** (Alison)
 - **CompTIA A+** (Alison)
 - **Forensics** (Great Learning)
 - **Network security** (great leaning)
 - **Firewall rules and security** (Great learning)
 - **AWS network certification** (Great learning)
 - **Cloud computing certification** (Great learning)
 - **React certification** (Great learning)
-

EDUCATION

University of Embu (2021 - 2025)

- BSc in Information Technology (Expected Graduation: September 2025)

Kobos Boys High School (2017 - 2020)

- Kenya Certificate of Secondary Education (KCSE): B- (57 Points)

Marinda Primary School (2008 - 2016)

- Kenya Certificate of Primary Education (KCPE): 329 Marks
