The Human Resource Manager

Optiven Group

Karen Office, Zamani Business Park

Nairobi, Kenya

Dear Sir/Madam,

RE: APPLICATION FOR INDUSTRIAL ATTACHMENT IN THE ICT DEPARTMENT

I am writing to express my interest in the Industrial Attachment opportunity in the ICT Department at Optiven Group, as advertised on your website. I have recently completed my final examinations for the Diploma in Information and Communication Technology at NIBS Technical College, and this industrial attachment is a required component for completion of my program. I am eager to gain hands-on experience in a professional environment to fulfill this prerequisite and prepare for the job market.

My educational background includes strong foundational skills in ICT, data management, and web development. In my previous role as a Data Collection Officer at Mega Ltd Company I collected, validated, and digitized data for research projects, generated reports using Excel and Google Sheets, and provided administrative support. As a freelance Fullstack/Frontend Web Developer I have built responsive websites and systems using React.js, Node.js, MongoDB, Tailwind CSS, JavaScript, PHP, and MySQL. I have also integrated payment gateways like M-Pesa and PayPal, customized Content Management System (CMS) platforms such as WordPress, and managed hosting, domains, and professional email setups. These experiences have sharpened my proficiency in Microsoft Office tools, data entry, cleaning, and reporting, as well as my ability to collaborate in teams using tools like Git, Slack, and Zoom.

I am particularly drawn to Optiven Group's commitment to Corporate Social Responsibility and supporting education through initiatives like this attachment program. I possess strong

oral and written communication skills in English, am a fast learner, and am ready to contribute to day-to-day departmental operations, research, data entry, reporting, and projects. This attachment aligns perfectly with my goal of applying practical skills in ICT to real-world scenarios, and I am excited about the opportunity to learn from your team during the period from September 15 to December 15, 2025.

Enclosed is my Curriculum Vitae for your review. I would welcome the chance to discuss how my skills and enthusiasm can support Optiven Group's objectives. Thank you for considering my application. I look forward to your positive response.

Yours sincerely,

Carolyn Wanjiru
