

Titus Omondi

 Kisumu, Kenya |  +254 790 685 475 |  titomondi@gmail.com |

Career Objective

Detail-oriented IT graduate with strong skills in software development, SQL scripting, and solution configuration. Passionate about leveraging technology to improve public services in the e-government space, with a proven ability to analyze requirements, configure systems, and provide end-user support. Seeking to join BQI Tech as a Software/Technical Intern to contribute to impactful solutions in land management, licensing, and asset management systems while further developing my expertise in COTS software configuration, report development, and Agile delivery.

Education

Bachelor of Science in Information Technology

Kabarak University, Kenya | 2019 – 2023

Certifications:

- Cisco Networking Essentials
 - Cisco Cybersecurity Essentials
 - Software Testing Fundamentals (online course)
-

Technical Skills

- **Programming & Scripting:** JavaScript, Python, SQL (MySQL, SQL Server basics), APIs (JSON, XML)
- **Database Management:** SQL scripting, data migration, schema design
- **Report Development:** Exposure to SSRS & Crystal Reports basics
- **System Development:** COTS configuration, testing, and debugging
- **Methodologies:** Agile (Scrum) & Waterfall project exposure
- **Tools:** JIRA, GitHub, MS Office Suite, Figma
- **Soft Skills:** Communication, documentation, requirement analysis, teamwork

Experience

IT Intern – AquaRech Ltd | May 2023 – Aug 2023

- Assisted in configuring and documenting software features to meet client needs.
- Supported SQL-based integrations and prepared test cases for deployed solutions.
- Collaborated with developers to troubleshoot bugs and provide user feedback reports.

IT Support Trainee – Digisteps Innovation Hub | Jan 2023 – Apr 2023

- Worked on client digital solutions, including small apps and database-driven tools.
- Participated in requirement gathering & user documentation to guide product delivery.
- Assisted in data conversion tasks and ensured smooth migration to new systems.

Core Strengths

- Strong interest in public service tech (land mgmt, licensing, enforcement).
- Ability to bridge technical configuration and end-user communication.
- Skilled in documentation, testing, and presenting solutions clearly.
- Adaptable to both Agile sprint work and structured Waterfall projects.
