PROFESSIONAL SUMMARY

Analytical Data Scientist with 3+ years of experience applying machine learning, NLP and advanced analytics to solve complex business and social challenges. Designed and deployed a BERT-based model that achieved 85% accuracy in detecting high-risk gender-based violence cases, demonstrating technical expertise and measurable community impact. Spearheaded automation of regional sales and inventory systems, driving operational efficiency and expanding client networks across Mt. Kenya. Skilled in financial analysis, predictive modeling and data visualization with hands-on experience in hybrid and remote work environments. Seeking to contribute analytical expertise and AI innovation to forward-thinking organizations.

SKILLS

Python Programming, Data Wrangling, Statistical Analysis, Machine Learning, Deep Learning, Natural Language, Text Classification, Emotion Detection, Predictive Modeling, Feature Engineering, Data Visualization, Business Intelligence, Data Warehousing, ETL Processes, Model Evaluation, A/B Testing, Performance Tuning, Financial Analysis, Sales Analytics, Client Advisory, Investment Planning, Contract Negotiation, Portfolio Management, Risk Assessment and Storytelling Data.

EXPERIENCE

Self-Employed | Archers Electricals and Plumbing | January 2023 - Present

Financial Advisor (Hybrid)

Icea Lion Group | Meru, Kenya | March 2022 - December 2022

Roles And Responsibilities:

- Improved client financial planning by delivering customized investment strategies, enhancing retirement and wealth outcomes for 100+ clients.
- Conducted portfolio risk assessments and recommended investment options that increased long-term portfolio performance.
- Ensured compliance with regulatory frameworks while aligning client goals with investment strategies.
- Strengthened client relationships, boosting retention and generating referral growth.
- Delivered virtual advisory sessions that maintained seamless client engagement in a hybrid environment.
- Simplified complex financial concepts into actionable guidance, enabling informed decision-making.
- Applied statistical and financial modeling to optimize product alignment with client income profiles.

Business Development Manager

Meta-Coca-Cola Distributor | Meru, Kenya | July 2019 – January 2022

Roles And Responsibilities:

- Spearheaded sales and inventory automation, reducing errors and increasing reporting accuracy across regional operations.
- Expanded distribution network by acquiring 50+ new vendors and strategic partnerships across Mt. Kenya.
- Analyzed sales data to design regional marketing campaigns, resulting in measurable revenue growth.
- Negotiated vendor contracts that reduced costs and strengthened supply chain resilience.
- Directed cross-functional sales teams, fostering collaboration and accountability.
- Maintained consistent client engagement through remote communication platforms.
- Optimized distribution and logistics planning, improving delivery speed and customer satisfaction.

PROJECT

Femicide Risk Detection Model (Nlp, Bert) | 2025

- Developed and deployed a BERT-based NLP model to identify high-risk gender-based violence cases with 85% accuracy.
- Enhanced model precision through integration of emotion detection and linguistic feature extraction.
- Designed and launched a real-time prediction dashboard in Streamlit, accelerating stakeholder decision-making.
- Implemented robust annotation and evaluation pipelines to improve dataset quality.
- Applied AI for measurable social impact, bridging data science with community safety.

EDUCATION

- **Bachelor of Economics and Statistics** | Kenyatta University | 2018

CERTIFICATE

- **Certificate in Data Science** | Moringa School | 2025

TOOLS

Python, SQL, TensorFlow, Tableau, Power BI, Matplotlib, Seaborn, MongoDB, Streamlit, Jupyter, Git, NumPy, Pandas, Scikit-Learn, NoSQL, BERT, TF-IDF.

LANGUAGES

❖ English - Fluent

❖ Swahili - Native
