SUMMARY

An aspiring IT professional with a strong foundation in networking, system deployment, and cybersecurity. Skilled in configuring and troubleshooting Ethernet and wireless networks, performing vulnerability assessments, threat analysis, and network monitoring. Proficient in using tools such as Nmap, Wireshark, and Metasploit to enhance system security and reliability. Adept at collaborating with teams to deliver efficient, secure solutions while maintaining a customer-focused approach.

SKILLS

Networking: Installation and configuration of Ethernet and wireless networks, including IP-based systems.

Programming: C#, Python, SQL, PHP, AL (Dynamics 365 Business Central)

Technical Tools: Wireshark, Nmap, Visual Studio, Docker, Git, RDLC/Word Reporting, Microsoft Office Suite.

Cybersecurity: Vulnerability Assessment, Threat Detection, CTF Competitions, Penetration Testing

Soft Skills: Communication, Collaboration, Problem-Solving, Time Management

PROFESSIONAL WORK EXPERIENCE

Mastercard Cybersecurity virtual experience program on Forage

July 2025

- Completed a job simulation where I served as an analyst on Mastercard's Security Awareness Team
- Helped identify and report security threats such as phishing
- Analyzed and identified which areas of the business needed more robust security training and implemented training courses and procedures for those teams

Security Analyst (TRAINEE)

September 2024 - December 2024

CyberShujaa – VIRTUAL

- Conducted simulated penetration tests to identify and exploit system vulnerabilities.
- Practiced privilege escalation, lateral movement, and post-exploitation in secure scenarios.
- Performed threat-hunting by analyzing network logs and traffic for suspicious activities.
- Gained proficiency in Nmap, Wireshark, and Metasploit for real-world cybersecurity applications.

Technical Consultant - Business Applications (ATTACHMENT)

September 2023 - December 2023

Agile Business Solutions Limited – Jumuia, Nairobi, Kenya

- Developed and customized extensions (pages, tables, reports) for Microsoft Dynamics 365 Business Central.
- Customized user interfaces by developing/altering pages, adding fields, and actions.
- Created and modified reports using AL, RDLC, and Word layouts for data presentation.
- Tested and debugged extensions using Visual Studio Code, ensuring reliable solutions.

EDUCATION

Umma University – Nairobi, Kenya

September 2021 – May 2025

Bachelor of Science in Information Technology

CERTIFICATIONS

- ❖ Cisco Certified Network Associate
- ❖ Cisco Ethical Hacking
- ❖ Enterprise Security in Practice - IBM
- ❖ Professional Foundations - ALX
- ❖ Networking and Administration Fundamentals
- ❖ Introduction to Cyber-security - Cisco Networking Academy.
