

JUDITH KYEE (BI Analyst | Data Analyst | Data Scientist | AI & Machine Learning Engineer)

+254 743 834 426 | judithkyee@gmail.com | Location: Nairobi, Kenya (GMT+3)

PROFESSIONAL SUMMARY

I am a results-driven professional with expertise in data analysis, machine learning, and business intelligence. Proficient in SQL, Python, R, Tableau, Zoho analytics and Power BI, with expertise in predictive modeling, statistical analysis, and CRM administration. Adept at data visualization, ETL processes, and customer segmentation, transforming raw data into actionable insights that drive strategic decision-making and operational efficiency. Skilled in optimizing databases, automating reporting, and improving forecasting accuracy. Passionate about leveraging data science techniques to solve complex business problems and enhance organizational performance. Actively seeking remote, onsite, and hybrid job opportunities.

KEY ACHIEVEMENTS

- Automated reporting in Salesforce CRM, reducing manual workload by 50% and improving efficiency.
- Increased marketing campaign effectiveness by 15% through data-driven customer segmentation.
- Developed predictive models that improved sales forecasting accuracy by 20%.
- Optimized company databases, improving data quality and integrity by 25%.
- Successfully trained and onboarded 20+ employees in CRM systems, enhancing adoption rates to 95%.
- Designed and implemented a data pipeline that reduced data processing time by 40%, enhancing business intelligence insights.
- Increased marketing campaign effectiveness by 15% through data-driven customer segmentation.
- Developed predictive models that improved sales forecasting accuracy by 20%.
- Optimized company databases, improving data quality and integrity by 25%.

SKILLS AND COMPETENCIES

Hard Skills

- Programming: Python (Pandas, NumPy, SciPy, Scikit-learn, TensorFlow, Matplotlib, Seaborn), R (RStudio).
- Databases & SQL: SQL Server, MySQL, PostgreSQL, Snowflake, Big Query (Data Modeling, Query Optimization, Performance Tuning), Metabase.
- Data Visualization & BI: Tableau, Power BI (modelling & dax fuctions, Excel (Pivot Tables, VBA, Macros), Metabase, Zoho analytics, Looker, Power queries.
- Machine Learning & AI: Supervised & Unsupervised Learning, Predictive Modeling, Statistical Analysis.
- ETL & Data Management: Data Cleaning, Transformation, Warehousing, Salesforce CRM.
- Project Management Tools: Jira, Trello, Click-Up, Asana, Monday.com, research skills.
- Remote Team Collaboration: Google workspace, Microsoft office suite, Zoom. Calendly, Slack.

Soft Skills

- **Analytical Thinking:** Skilled in interpreting complex data and deriving meaningful insights.
- **Problem-Solving:** Expertise in troubleshooting data inconsistencies and improving business processes.
- **Communication:** Strong verbal and written communication skills for presenting insights effectively.
- **Team Work:** Experienced working in cross-functional teams to achieve business goals.
- **Highly organized:** Skilled in managing data projects and meeting deadlines.
- **Presentation Skills:** Able to translate technical findings into business-friendly recommendations.

PROFESSIONAL EXPERIENCE

Head of Marketing and Strategy

Technirvana Solutions | January 2025 – present

- Leads the development and execution of comprehensive marketing strategies, increasing brand visibility and customer engagement.
- Collaborates with cross-functional teams to align marketing initiatives with overall business goals.
- Oversees digital marketing campaigns across social media, email, and web platforms, resulting in a steady increase in qualified leads.
- Analyzes market trends, customer insights, and competitive landscape to inform strategic decisions.
- Builds and manages strategic partnerships to expand the company's market presence and drive growth.
- Tracks and reports key performance metrics to optimize campaigns and improve ROI.
- Mentors and manages a small marketing and analytics team to ensure consistent delivery of results.

Data Analyst Specialist & CRM Administrator

Trific Sez | Sept 2024 – June 2025

- Developed automated dashboards in Salesforce CRM, reducing reporting time by 50%.
- Cleaned and transformed large datasets, improving data quality and integrity by 20%.
- Created weekly and monthly reports, leading to a 15% improvement in data-driven decision-making.
- Onboarded and trained team members on Salesforce CRM, contributing to a 95% system adoption in a shorter period of time.
- Generated 500+ qualified leads through desk top research.
- Designed and implemented efficient data pipelines, reducing data processing time by 40%.
- Conducted A/B testing and customer segmentation analysis to improve sales and marketing strategies.
- Built machine learning models to predict customer churn and optimize retention strategies.
- Provided actionable insights through interactive dashboards that enhanced executive decision-making.

EDUCATION

- **BSc in Mathematics & Computer Science**
Multimedia University of Kenya | Oct 2023]
- **Data Analytics Certificate**
Turing College [June 2025]

ADDITIONAL INFORMATION

Projects

Adventure Works Data Extraction using SQL (Big Query) – 2024

- Extracted and analyzed product data using Google Big Query, focusing on high-value inventory insights.
- Optimized SQL queries for **sales analysis**, special offers, and vendor management, ensuring accurate reporting.

Bank Customer Churn Prediction Model – Jan 2024

- Developed a predictive model using **Python (pandas, NumPy, scikit-learn, Matplotlib, Seaborn)** to analyze bank customer churn.
- Improved accuracy in customer retention strategies through **data-driven insights**.

Remote Work Ready

- **Remote Suitability:** Access to high-speed internet (**20 Mbps+ with Backup ISP**), well-equipped remote workspace
- **Languages:** Fluent and proficient in English (**Native Speaker**)
- **Time Zone Flexibility:** Comfortable working across all time zones such as **MST, EST, EDT, PST, CET, CST, GMT** and **UTC**
