Experience

IT Specialist, Collection Africa Limited

03/20126 – Present
Nairobi

Core Technical Support & Infrastructure

- Systems Maintenance: Managed and maintained computer systems, networks, and operating systems to ensure 99% uptime and peak performance.
- Hardware/Software Troubleshooting: Diagnosed and resolved complex hardware and software faults, providing both on-site and remote technical support.
- Vendor Management: Coordinated with external vendors and consultants for specialized repairs, equipment procurement, and infrastructure updates.

Specialized Platform Management (PRSP & SIP)

- Platform Administration: Managed the PRSP platform, including client onboarding, Sender ID activation, and rate card configuration.
- Communications Oversight: Monitored SIP directories, managed VoIP limits/usage, and tracked SMS consumption via the Safaricom SDP portal.
- Regulatory Compliance: Prepared and filed quarterly CAK (Communications Authority of Kenya) reports to ensure full PRSP regulatory compliance.

Operations & Asset Management

- IT Asset Lifecycle: Maintained a comprehensive inventory of hardware, software, and licenses, conducting quarterly audits and asset-tagging exercises.
- User Training: Developed and implemented training programs and weekly exercises to improve staff technical literacy and system efficiency.
- Reporting & Analytics: Generated weekly and monthly reports for management regarding system performance, maintenance tasks, and IT-related incidents.
