

LYDIA MUTANU

DATA SCIENTIST AND ANALYST

mutanumalala@gmail.com | [+254-796-741- 663](tel:+254796741663) | Nairobi

Results driven aspiring Data Scientist with a strong background in Machine Learning and Data Analysis. Proficient in Python and SQL with experience in NLP, predictive modeling, and AI driven decision systems. Passionate about leveraging datadriven insights to solve complex business problems. Seeking an internship to apply my academic knowledge and contribute to a dynamic team.

EDUCATION

1.Bachelor of science in Data Science, Jomo Kenyatta University of Agriculture and Technology, expected 2027

Relevant course work: Machine learning, Data structure and Algorithms, Programming in C, C++ and python

2.Data Science Intensive program, Moringa School,[Nairobi ,KENYA],Completed[February,2025]

6-month intensive program focused on practical data science skills.

Key Modules: Python Programming, Data Wrangling (Pandas, NumPy), Machine Learning (Scikit-learn), Data Visualization (Matplotlib, Seaborn), Database Management (SQL).

3.High School, Kenya High School(KCSE B+), 2019-2022

PROFESSIONAL SKILLS AND TECHNOLOGIES

Programming Languages:

Python (Tensor Flow, Scikit-learn, Pandas, NumPy)

SQL

Data Analysis & Machine Learning:

Machine Learning (Regression, Classification, Clustering)

Natural Language Processing (NLP)

Data Preprocessing and Feature Engineering

Statistical Analysis

Data Visualization:

Tableau

Data Visualization Libraries (Matplotlib, Seaborn)

Databases:

SQLite

CRM Tools:

HubSpot

Zoho CRM

Design & Content Creation

Canva

CapCut

Communication & Scheduling

Microsoft Outlook

Google Calendar

Zoom

Productivity & Collaboration

Google Workspace (Docs, Sheets, Slides)

Microsoft Office (Word, Excel, PowerPoint)

Trello

Social Media & Digital Marketing

Instagram

Facebook Business Suite

LinkedIn

Meta Ads Manager

PROJECTS

AgriPrice Forecast-Kenya

A data science project utilizing machine learning and sentiment analysis to predict agricultural product prices in Kenya. It integrates historical price data and social media insights to help farmers and traders make informed decisions.

Exploratory Data Analysis (EDA) for a Film Production Studio

Conducted data-driven analysis to identify key factors influencing box office success. Utilized correlation assessments and visualizations to derive insights on profitable genres, themes, and production elements. Provided strategic recommendations to optimize content strategy and minimize financial risks.

The SyriaTel Customer Churn Analysis project focuses on identifying factors contributing to

customer churn using data analysis techniques. It involves exploring customer behavior, applying machine learning models to predict churn, and deriving actionable insights to improve retention strategies.

EXPERIENCE

Marketing and sales intern

Fahari Beauty – Nairobi, Kenya

July 2025-Present

Assisted in planning and executing social media campaigns

Engaged with over 500 potential clients, boosting outreach

Supported the sales team with product presentations and pitches

Analyzed customer feedback to improve service delivery

ADDITIONAL INFORMATION

Developer Tools: Git, PopSQL, VS code, Google Colab
